SUMMARY

Results-oriented **Data Scientist and Master of Data Science student at The University of British Columbia** with about 3 years of combined experience in data analytics and developing machine learning & AI solutions. Experienced in building Retrieval-Augmented Generation (RAG) systems and optimizing machine learning algorithms to drive measurable impact. Recognized for a commitment to data-driven innovation & education, having trained over 1,000 African tech enthusiasts globally.

EDUCATION

University of British Columbia, Vancouver, BC ***Sep 2025 - June 2026***

- Master of Data Science

University of Benin, Edo, Nigeria ***Sep 2016 - Dec 2022***

- Bachelor of Engineering (B.Eng.) in Structural Engineering - *Distinction*

SKILLS

- Supervised Machine Learning, RAG, Large Language Models.
- Predictive Analytics with Scikit-Learn, Natural Language Processing & AI
- Office tools (MS word, Excel, PowerPoint), Google Suites (Doc, Sheet, Slide)
- Communication and Stakeholder Engagement & Intelligence Reporting
- Data Cleaning, Exploration and Visualization with Python and R
- Data Exploration and Visualization Using Excel, Tableau and PowerBI
- Teamwork, Team Building Capabilities And Time Management
- Critical Thinking and Problem Solving Program Operations & Administration
- Data Querying with SQL (Postgres & MongoDB), ETL
- Version Control & Collaboration with Github.
- Containerization & Deployment with Docker.
- Critical Thinking and Problem Solving

WORK EXPERIENCE

University of British Columbia | Vancouver, BC

Development and Alumni Engagement Ambassador ***Sep 2025 – Present***

- Facilitating strategic outreach and donor relations for UBC's FORWARD mission, leveraging effective communication to enhance alumni engagement and institutional support.
- Work collaboratively with staff and ambassadors as a professional representative of the University of British Columbia, ensuring high-quality experiences for university stakeholders.

AMDARI Alberta CA, (Remote), Alberta, CA

Head of Internships/Data Professional ***Dec 2024 – May 2025***

- Spearheaded the daily operational activities of the Remote Apprenticeship Virtual Experience (RAVE) team, establishing data-driven KPIs that aligned with the company's growth vision.
- Directed quality control processes to review business case studies, evaluate technical projects for over 100 interns, utilizing data insights to drive continuous improvement in program service delivery.
- Supervised technical specialists across multiple domains, ensuring the delivery of high-quality training and real-world guided data solutions. Conducted informational sessions and workshops to expand business awareness for partners and guiding institutions..

Darey.io United Kingdom, (Remote), United Kingdom

Data Scientist / Artificial Intelligence Engineering Intern ***Sep 2024 – Nov 2024***

- Collaborated in engineering AI algorithms for skill tracking and personalized learning paths, including a semantic comparison system for user assessment and Employability Index (EI) score computation using Python, OpenAI and Claude Models.
- Collaborated in designing the data science and AI curriculum, alongside research in AI advancements to improve platform capabilities for over 100 learners.

Data Scientists Network/ Data Science Nigeria, On-site - Lagos, Nigeria

Data Scientist (National Youth Service Corps) ***Mar 2024 – Oct 2024***

- Data Cleaning and Analytics of large volumes of company data utilizing Microsoft Excel, PostgreSQL, Google Colab and Python.
- Contributed to the development of social-impact AI solutions, including a Retrieval-Augmented Generation (RAG) system utilizing LLMs and LangChain for streamlined query answering.
- Collaborated with the SWE team in the deployment of a data-driven chatbot solution providing vital reproductive and maternal information for communities in northern Nigeria.
- Implemented a translation module (from English to Hausa) utilizing Google's translation API to improve accessibility for non-english speaking locations in northern Nigeria.

Nebiant Analytics, (Remote), Ikeja Nigeria
Data Science Instructor (Contract) ***Jun 2024 – Aug 2024***

- Instructed data science concepts, including Excel, hypothesis testing, linear regression, and dashboarding, as part of Nebiant's data science curriculum.
- Designed and delivered comprehensive course materials and instructional videos to enhance learner analytical and data interpretation skills.

10Alytics, (Remote), United Kingdom
Senior Data Associate / Data Science Team Lead ***Apr 2023 – Feb 2024***

- Directed the full-stack data science division, collaborated with data professionals across Africa, Europe and North America in intelligent reporting, utilization and provision of data driven solutions from analytical proceedings to partners and clients of the organization.
- Facilitated technical masterclasses for over 1,000 participants across three continents, focusing on data preprocessing, exploratory data analysis, feature engineering, and predictive modeling.

Junior Data Associate ***Sep 2022 – Mar 2023***

- Coordinated monthly data science cohorts and facilitated weekly technical review sessions across Excel, SQL, Tableau, and Python-based company projects.
- Provided end-to-end administrative and technical support, creating clear, supplemental documentation to reinforce core data analysis and data science concepts.

Edo Innovation Hub, Edo, Nigeria
Data Professional Intern ***Sep – Dec 2022***

- Collaborated with the data team to support daily operations and ensure timely completion of projects and deliverables. Conducted data analysis, visualization, and reporting using Python, SQL, Power BI, and Excel.
- Developed baseline models for regression and classification tasks, contributing to actionable insights.
- Trained 100+ partner participants in data methodologies, techniques, and best practices.

VOLUNTEER EXPERIENCE

AI for Kids, Africa
Founder ***Oct 2024 – Present***

- Connecting Africa's next generation to AI solutions. Collaborating with schools, educators, NGOs and AI solution-creators to implement AI education and technologies that foster growth and empower the next generation.

RACAI-POK Project, Edo, Nigeria
Data Analyst ***Feb 2023***

- Executed a survey data collation strategy to solicit feedback responses of over 500 individuals. Analysis of data collected, presentation of information to stakeholders and corresponding strategy documentation for implementation of the insights gathered.

LEADERSHIP EXPERIENCE

Google Developers Group Benin, Edo State, Nigeria
Co-Organizer ***Sep 2022 - Present***

- Provision of hands-on workshops, training, and meetups to foster growth and familiarity with google products and platforms.

The Light Conference (TLC 2024), Nigeria
Technical Team Lead ***Jul – Aug 2024***

- Directed the technical team in delivering high-quality sound, lighting, and visual experiences for over 1,000 conference attendees.

RACAI Tech Conference, Edo State, Nigeria
Organizer ***July 2023***

- Worked in a 4-man team, organized, and hosted a 2-day gathering of over 300 registered tech enthusiasts. Provision of access to resource personnel, career pathways and materials to kickstart their tech journey.Trained participants on computer appreciation and data analysis.
