SUMMARY

Data Scientist with 3+ years of experience working across **data analytics, machine learning**, and AI-driven solutions, with a focus on turning ambiguous problems into actionable insights. Experienced in taking problems from data exploration to modeling and measurable impact through interpretation and clear communication, while working effectively within collaborative team environments. Recognized for a commitment to data-driven innovation & education, having trained over 1,000 African tech enthusiasts globally. My work sits at the intersection of technical rigor, business value, education, and social impact.

EDUCATION

Master of Data Science **Sep 2025 - June 2026**

- ***University of British Columbia,*** *Vancouver, BC*

Bachelor of Engineering (B.Eng.), Structural Engineering **Sep 2016 - Dec 2022**

- ***University of Benin,*** *Nigeria - Distinction*

SKILLS

- Supervised Machine Learning with Scikit-Learn, Pytorch
- Natural Language Processing, Retrieval Augmented Generation, Large Language Models integration
- Version Control & Collaboration with GitHub. Automation with GitHub Workflows
- Containerization & Deployment with Docker
- Data Cleaning, Exploration & Visualization with Python and R
- Data Querying with SQL (Postgres & MongoDB), ETL Pipelines
- Data Exploration & Visualization Using Excel, Tableau and PowerBI.
- Critical Thinking and Problem Solving, Teamwork and Team Building

WORK EXPERIENCE

Head of Internships/Data Professional **Dec 2024 – May 2025**

AMDARI Alberta CA, (Remote), Alberta, CA

- Spearheaded operations for the Remote Apprenticeship Virtual Experience (RAVE), defining and tracking KPIs to support program growth and performance.
- Directed quality assurance for business case studies and evaluated technical projects for 150+ interns, using data insights to improve company metrics and meet deliverables for partners and institutions.
- Supervised technical specialists across multiple domains, ensuring the delivery of high-quality training and real-world guided data solutions.

Data Scientist / Artificial Intelligence Engineering Intern **Sep 2024 – Nov 2024**

Darey.io United Kingdom, (Remote), United Kingdom

- Collaborated in engineering AI algorithms for skill tracking and personalized learning, including a semantic comparison system and Employability Index (EI) score computation using Python and LLMs (OpenAI, Claude).
- Co-designed data science and AI curriculum and conducted applied research on emerging AI methods to enhance platform capabilities for 100+ learners.

Data Scientist (AI Research & Innovation) **Mar 2024 – Oct 2024**

Data Scientists Network/ Data Science Nigeria, On-site - Lagos, Nigeria

- Performed data cleaning and analytics on large-scale company datasets using Python, PostgreSQL, Google Colab, and Microsoft Excel.
- Contributed to the development of social-impact AI solutions, including a Retrieval-Augmented Generation (RAG) system using LLMs and LangChain for efficient information retrieval.
- Collaborated with the software engineering team to deploy a data-driven chatbot delivering reproductive and maternal health information, including an English–Hausa translation module using Google's Translation API to improve accessibility in northern Nigeria.

Senior Data Associate / Data Science Team Lead **Apr 2023 – Feb 2024**

10Alytics, (Remote), United Kingdom

- Led the data science division, collaborating with data professionals across Africa, Europe, and North America to deliver analytical and data-driven solutions for organizational partners.
- Designed and facilitated technical masterclasses for 1,000+ participants globally, focusing on data preprocessing, EDA, feature engineering, and predictive modeling.

Junior Data Associate **Sep 2022 – Mar 2023**

- Coordinated monthly data science cohorts and facilitated weekly technical review sessions across Excel, SQL, Tableau, and Python-based company projects.
- Provided end-to-end administrative and technical support, creating clear documentation to reinforce core data analysis and data science concepts.

NOTABLE PROJECTS

Data Science Contributor - *You Need a Dictionary Python Package* **Jan 2026**

University of British Columbia | Vancouver, BC

- Collaborated with a team of data scientists to develop a Python package that analyzes sentiment shifts caused by lexical substitutions in text.

Data Scientist - *AfroSLM* **April 2024 – Oct 2024**

Equalyz AI | Lagos, Nigeria

- Supported the AfroSLM multilingual language model by performing data preprocessing and augmentation to improve generative AI performance and translation from English - Yoruba.

LEADERSHIP EXPERIENCE

Co-Organizer **Sep 2022 - Present**

Google Developers Group Benin | Edo State, Nigeria

- Provision of hands-on workshops, training, and meetups to foster growth and familiarity with google products and platforms.

Founder **Oct 2024 – Present**

AI for Kids | Africa

- Connecting Africa's next generation to AI solutions. Collaborating with schools, educators, NGOs and AI solution-creators to implement AI education and technologies that foster growth and empower the next generation.

CERTIFICATIONS

- **Supervised Machine Learning: Regression and Classification**
  Coursera Certification
- **Exploratory Data Analysis for Machine Learning**
  IBM Certification
- **Ask Questions to Make Data-Driven Decisions**
  Analytics Professional Certification
- **Foundations: Data, Data Everywhere**
  Analytics Professional Certification
